

KEEPING AN EYE ON EFFICIENCY FOR LEADING OPHTHALMIC SPECIALISTS

PROJECT DETAILS

Client

Midland Eye

Completed

Ongoing

Oakland Business Line

HVAC Service and FM

Objective

Planned preventive and reactive maintenance of M&E systems

MIDLAND EYE IS A SPECIALIST OPHTHALMIC CLINIC THAT PROVIDES SPECIALIST SERVICES FOR THE DIAGNOSIS AND TREATMENT OF ALL EYE CONDITIONS.

Treatments use the latest technologies such as lasers for conditions including cataracts, macular degeneration and vision correction. Cosmetic treatments are also available for facial areas surrounding the eye.

Oakland provides technical and advisory services to the team at Midland Eye in Solihull. This includes HVAC maintenance which has recently involved an upgrade of their air conditioning system.

Oakland also supports Midland Eye with Fire alarm and emergency lighting services as well as reactive services for M&E systems and building fabric repairs.
